

Mohammad Khalid

Position: Professor

E-Mail: khalids@sunway.edu.my

Office Extension: 7594

Education:

Ph.D, Engineering (Biotechnology), International Islamic University, Malaysia

MSc, Chemical & Environmental Engineering, University Putra Malaysia, Malaysia

B.E, Chemical Engineering, Visvesvaraya Technological University, India

Teaching:

Multiphase systems

Heat Transfer

Fluid Mechanics

Brief Employment History:

University of Nottingham: Associate Professor (2015-2017)

University of Nottingham: Assistant Professor (2011-2014)

UCSI University: Lecturer (2009-2011)

Research Interests:

My research focusses on nanomaterial synthesis, heat transfer fluids, phase change materials, and energy harvesting. More specifically, I'm currently working on solar energy harvesting using deep eutectic salts (DES) and carbon nanoparticles based nanolubricants and coolants for improving engine performance. Simultaneously, I'm also working on nanocomposites, polymer recycling and radiation processing of polymer blends.
